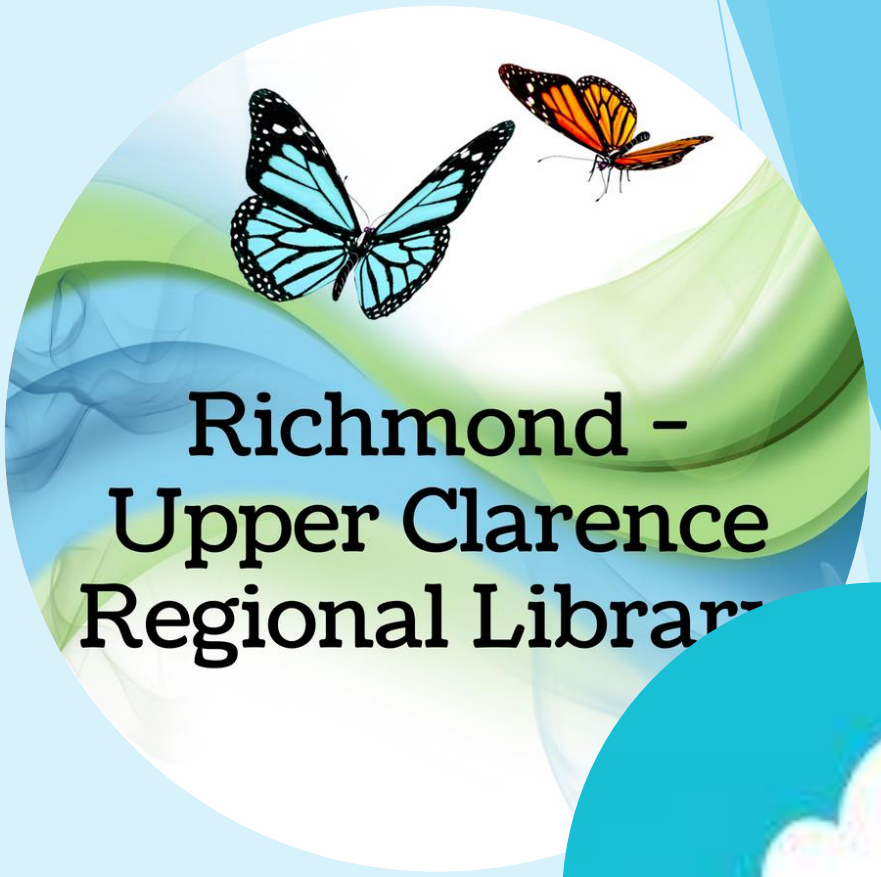
Encourage your team to know and love their eResources using Beanstack



May 2020 – Kelly Woods from Shoalhaven shared their Digital Dig quiz initiative at the Reference and Information Services seminar.

Soon after in 2020 – Taryn Kelly utilised this idea to create a monthly quiz for our Regional Library team.

2023- Amy Boyd moved the monthly Digital Dig quiz over to utilising Beanstack app (an app for creating and running reading challenges).

Each month there are around 5 questions on one of our library's eResources/apps.

The questions are designed so that the team members need to explore and experiment or research how to use the eResource/app.

They include questions that could be commonly asked by library members who need assistance.

Pros:

- Easier set-up each month – don't receive multiple emails with various ways of responding from the team.
- Can extract all answers as an excel and see all staff responses in one place.
- Can set the challenge to Staff Only so no library members can view the challenges.
- Using an eResource while learning about other eResources!
- Can draw a winner easily.

Role

Patron

- Library Administrator
- Library Curator
- Branch Administrator
- Library Staff Plus
- Library Staff
- Volunteer
- Patron

Is this challenge only for staff members?

- (•) Yes
- ( ) No
